LINK IN PARK

Kelompok 8 (*Heatsink*)

Anggota Kelompok:

- Bima Adinata Namara
 (Animation + Display + Function)
- 2. Muhammad Brian Na'iman Hadi (Login Menu + User Guide)
- 3. Ryan Daniel Asatama Sibagariang (Payment Menu + Main Program)
- 4. Tio Larizky
 (Main Menu + Selection Menu)

(2006574566)

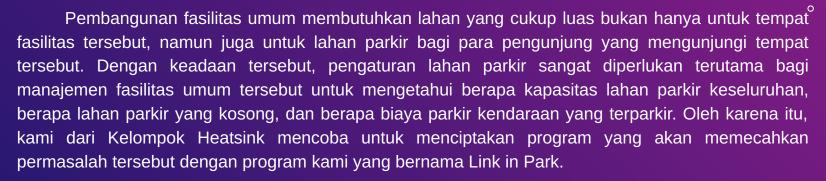

(2006574534)

(2006574616)

(2006574433)

LATAR BELAKANG DAN TUJUAN

Tujuan:

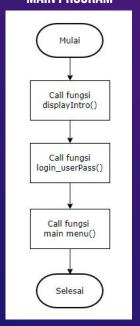

- Mempermudah operator untuk mengetahui berapa kapasitas keseluruhan lahan parkir.
- Mempermudah operator untuk mengetahui berapa sisa kapasitas lahan parkir yang tersedia bagi pengunjung.
- Mempermudah perhitungan dan proses pembayaran parkir bagi kendaraan yang akan keluar.

ALGORITMA

MAIN PROGRAM

FLOWCHART YANG DIMILIKI PROGRAM MEMILIKI DIMENSI YANG TIDAK DAPAT DIMUAT DALAM SLIDE. UNTUK Mengakses flowchart dapat melalui link drive atau dapat disimak melalui video penjelasan Dengan link yang tersedia di bawah ini
